ABOUT ME

Results-driven Digital Marketing Manager with 4.6 years of experience seeking a challenging career transition into the role of a Flutter Developer. I am eager to embark on a new journey in app development. As a quick learner and passionate problem solver, I aim to create seamless and visually captivating mobile experiences, contributing to a progressive and innovative development team.

INTERNSHIP EXPERIENCE:

Flutter Developer Intern - Baabtra Calicut
May 2023 - July 2023 (3 months)

Projects Handled:

1. Job Search App

Created a job search application with Flutter, integrating APIs to fetch job listings and display relevant details. Implemented search filters and user profiles to enhance the job-seeking experience and leveraged Firebase for user data storage.

- **Job Listings:** Display a list of job openings fetched from external job search APIs or a backend database. Present essential details for each job, such as job title, company name, location, and posted date.
- **Search Filters:** Provide search filters to allow users to refine their job search based on parameters like job title, location, industry, experience level, etc.
- **User Profiles:** Allow users to create and manage their profiles with personal information, work experience, and education details and enable users to upload resumes.
- **Job Details:** Offer a detailed view of each job listing, including a comprehensive job description, required skills, qualifications, and benefits.
- **Job Applications:** Enable users to apply for jobs directly within the app, with the option to attach their resumes and cover letters.
- **Favourites:** Allow users to save jobs they are interested in as favorites for easy access later.

Certifications:

- Certificate in Digital marketing
- Software testing
- Flutter development

Interests:

- Hand embroidery
- Drawing

2. WhatsApp UI Clone:

Designed and developed a feature-rich WhatsApp UI Clone with Home Screen, Chat Page, Chat Detail Page, and Camera functionalities. Enabled seamless image and emoji sharing, providing users with a complete and engaging messaging experience.

- **Home Screen:** Created a familiar WhatsApp-like layout with a scrollable list of contacts, including profile pictures and status updates.
- **Chat Page:** Developed a list of chat threads with contact names, last messages, and timestamps, enabling users to navigate to the Chat Detail Page.
- **Chat Detail Page:** Developed a chat interface with message bubbles, displaying sent and received messages, and a real-time text input field for messaging.
